Qualità estetica nei minimi dettagli!

Evolution Zero Syncro è una linea di pavimenti dal design di ultima tendenza, grazie alle finiture in poro sincronizzato.

L'elevata resistenza all'usura lo rende particolarmente adatto in ambienti come ristoranti, negozi, uffici e centri commerciali.

È un pavimento in SPC PLUS (Stone Polymer Composite).

Il materassino green incorporato assicura un alto livello di comfort acustico riducendo il rumore trasmesso di ben 25 dB.

Aesthetic quality right down to the smallest detail!

Evolution Zero Syncro is a line of flooring with the latest on-trend design, thanks to the decor and synchronized pore finish.

Its high wear resistance makes it particularly suitable for environments such as restaurants, shops, offices and shopping centres.

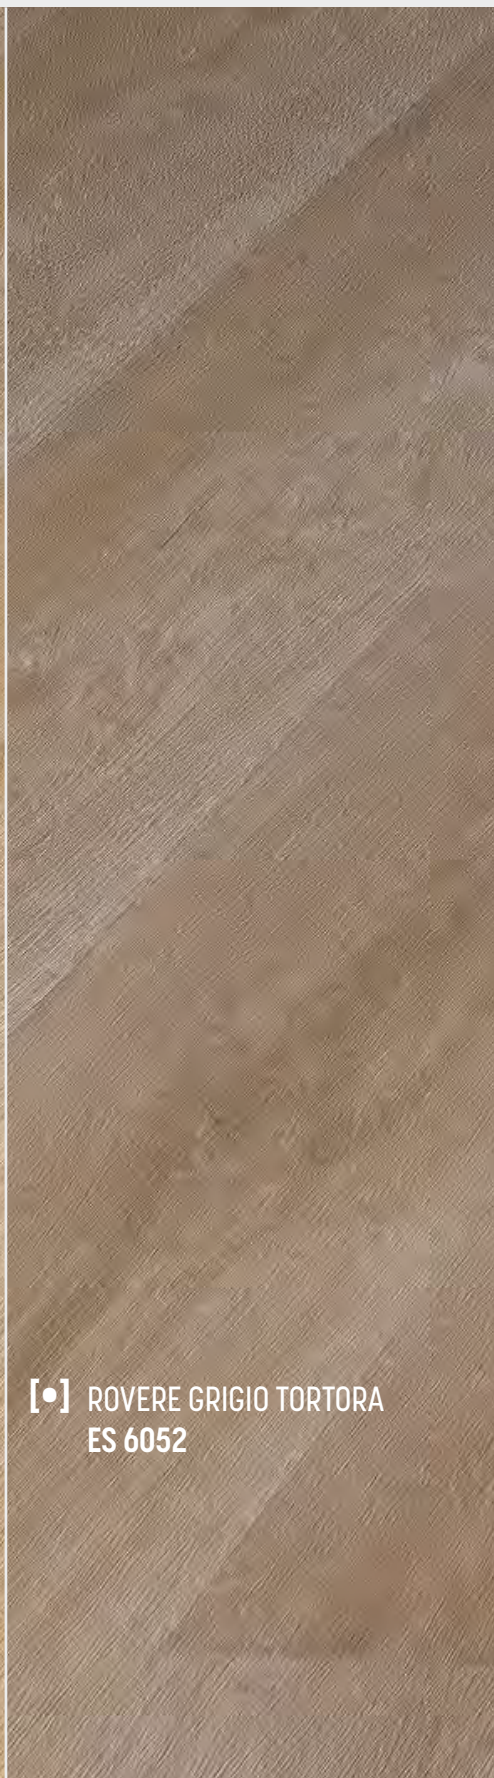

The Evolution Zero Syncro is a SPC PLUS (Stone Polymer Composite) flooring.

The built-in green underlay ensures a high level of acoustic comfort by reducing noise transmission by as much as 25 dB.
